**NOMINATION FORM FOR STATE EMPLOYEE  
TEAMS, WORK UNITS AND PARTNERSHIPS**

(FOR AN ACHIEVEMENT OCTOBER 1, 2009 AND  
SEPTEMBER 30, 2010 OR SPECIFIED PERIOD)

DEP-65

INFORMATION PERTAINING TO YOUR NOMINEES

**Team**

NAME OF TEAM, WORK UNIT OR PARTNERSHIP

**Central District OCULUS Electronic Records Team**

NAME OF AGENCY/AGENCIES

**Florida Department of Environmental Protection**

TOTAL NUMBER OF NOMINEES: **20**

NOMINEES' ACHIEVEMENT TITLE

**Providing Easy, Fast Public Access to Environmental Records**

**NOMINATOR'S INFORMATION** (This information is automatically filled in from your registration. Should you need to make changes, please go to Home Page and click on "Change Contact Information.")

Name of Nominator: **Ruth McLemore-Price**

Job Title: **Sr. Management Analyst**

Address: **3319 Maguire Blvd, Suite 232**

Agency: **Environmental Protection**

City: **Orlando**

State: **FL**

Zip: **32803-3767**

Telephone: **407-893-3983**

Fax:

Email: **Ruth.McLemore-Price@dep.state.fl.us**

For nominations involving employees located in multiple cities, please indicate where you would prefer an award to be presented, if applicable. Please select the location closest to the majority of your team, work unit or partnership. **Orlando**

**NOMINEES** Up to four people are listed below are those designated to receive checks on behalf of the team, should this nomination be awarded cash. Additional team members are listed at the end of the form.

1. Name: **Ms. Ruth McLemore-Price**

Job Title: **Senior Management Analyst**

Agency: **Florida Department of Environmental Protection**

Division or Bureau: **Central District**

Address: **3319 Maguire Blvd, Suite 232**

City: **Orlando** State: **Florida**

County: **Orange** Zip: **32803-3767**

Phone: **407-893-3983**

Email: **Ruth.McLemore-Price@dep.state.fl.us**

2. Name: **Mr. Tom Lubozynski**

Job Title: **Program Administrator**

Agency: **Florida Department of Environmental Protection**

Division or Bureau: **Central District**

Address: **3319 Maguire Blvd, Suite 232**

City: **Orlando** State: **Florida**

County: **Orange** Zip: **32803-3767**

Phone: **407-894-7555**

Email: **Tom.Lubozynski@dep.state.fl.us**

3. Name: **Ms. Kim Dodson**

Job Title: **Environmental Manager**

Agency: **Florida Department of Environmental Protection**

Division or Bureau: **Central District**

Address: **3319 Maguire Blvd, Suite 232**

City: **Orlando** State: **Florida**

County: **Orange** Zip: **32803-3767**

Phone: **407-894-7555**

Email: **Kim.Dodson@dep.state.fl.us**

4. Name: **Ms. Kerry Plank**

Job Title: <b>Engineering Specialist</b>	Agency: <b>Florida Department of Environmental Protection</b>
Division or Bureau: <b>Central District</b>	Address: <b>3319 Maguire Blvd, Suite 232</b>
City: <b>Orlando</b> State: <b>Florida</b>	County: <b>Orange</b> Zip: <b>32803-3767</b>
Phone: <b>407-894-7555</b>	Email: <b>Kerry.Plank@dep.state.fl.us</b>

### INFORMATION ON THE NOMINEES' ACHIEVEMENT

#### DATES AND HOURS

1. The beginning date was **January 2010**

The completion date was **August 2010**

2. The total combined number of hours that ALL state employees included in the nomination spent on the achievement between the beginning and completion dates of the achievement was **14800** hours.
3. The total combined number of hours that any consultants or contracted employees spent on the achievement between the beginning and completion dates of the achievement was **0** hours.
4. The percentage of total combined hours spent on the achievement by all state employee nominees that required them to perform above and beyond their job description, day-to-day performance expectations and the performance of peers by using special skills and exerting extra effort, creativity and/or perseverance was approximately **80 %**. **This nomination is for insertion of electronic documents into OCULUS, the electronic document management system used by the Department of Environmental Protection. Documents received or created electronically can be inserted. Staff worked with those who submit records to the Department to encourage that the records be submitted electronically. Most documents are generated using computer equipment. Not having to print the document and mail it saves submitter paper and postage costs. Getting information to the regulated community that electronic submission is acceptable was a challenge. Many rules require submission of a certain number (2-4) of copies.**

5. **WRITTEN SUMMARY OF ACHIEVEMENT**

This nomination is for insertion of electronic documents into OCULUS, the electronic document management system used by the Department of Environmental Protection. Documents are inserted into OCULUS if they are created by staff or received electronically. Larger format drawings (larger than 11 inches by 17 inches) are scanned and inserted into OCULUS.

This team inserted 11,270 electronic documents into OCULUS. Documents in OCULUS are available to anyone, anywhere using a computer with Internet connection to log onto the secure server. The 11,270 documents contain 14,864 MB of information. 1 MB is approximately 75 pages of information.

The 11,270 documents were inserted into OCULUS and not filed in paper format. If they had been filed in paper format, the documents would be more than 1 million pages and require 64 four drawer vertical file cabinets. These file cabinets require 7.5 square feet of space. Office space rental is \$21.65 per square feet. Potential rental savings for the reduction of the 64 file cabinets is \$6,030 per year.

Copying and printing costs saved are estimated at \$167,216. This is based on 1,114,770 pages at \$0.15 each page which is the copying fee provided in Chapter 119 Florida Statutes.

---

For more information, please contact (name) **Ruth McLemore-Price** at (telephone #) **407-893-3983** and (email) **Ruth.McLemore-Price@dep.state.fl.us**. (This person may be contacted with any questions regarding this achievement, before and after an award is assigned.)

6. **SPEAKING SUMMARY OF ACHIEVEMENT**

This team inserted 11,270 electronic documents into OCULUS, the electronic document management system used by the Florida Department of Environmental Protection. Documents in OCULUS are available to anyone, anywhere 24 hours per day using a computer with Internet connection to log onto the secure server.

11,270 documents would be more than 1 million pages and fill 64 four drawer file cabinets.

Cost savings are estimated to be \$173,245.47

---

#### SIGNIFICANCE OF ACHIEVEMENT - Part 1

All achievements nominated for 2011 Prudential - Davis Productivity Awards (except any recognizing hurricane preparation and relief efforts) MUST provide a response to the four (4) items below and embody at least five (5) of the priority characteristics listed under Significance of Achievement - Part 2 (from 5-16), but are not limited to five. **(Please provide responses similar to the samples provided.)**

1. Briefly explain how the nominees' achievement solved a problem, or corrected an efficiency deficit.

People and agency staff all need access to public records. Formerly records were paper based. People outside the office had to drive to Orlando to view records. People inside the office had to locate the program and filing system, then locate the record.

OCULUS records can be located in 1 minute which includes the time to log onto the secure server.

Electronic filing saves the costs of maintaining paper filing systems. It saves printing and paper costs.

2. My nominees' achievement positively impacted citizens.

Citizens are impacted directly by access to records 24 hours per day from a computer with Internet access. The 11,270 documents inserted into OCULUS and other documents in OCULUS are available all the time. Documents inserted into OCULUS are available immediately.

People do not need to drive to Orlando to view many records. OCULUS records can be located in 1 minute which includes the time to log onto the secure server.

If needed, copies of documents in OCULUS can be downloaded and provided.

Instead of mailing paper copies of permits and letters, Links to documents in OCULUS can be sent by e-mail.

- 
3. Briefly explain how your nominees' achievement measurably improved service delivery and/or internal operations, relative to the nominee's position and organizational level.

This team provided fast, easy access to 11,270 documents representing more than 1 million pages of public records. The records were for Waste Management facilities, Drinking Water and Underground Injection Control. Anyone with a computer and Internet connection can access records that are not exempt public records as listed in Chapter 119 Florida Statutes.

Viewing documents on your computer monitor is much easier and faster than driving to Orlando. It is much faster and easier than searching for a paper file.

Facilities that submit records electronically save time, money and postage costs.

4. **NET ADDED VALUE**

- a. The percentage of added value that resulted entirely from the efforts of your nominees is: **80** %. The percentage that should be attributed to a non-nominees (consultants or another state employees) is: **20**
- b. The actual added value from your nominees' achievement in 2009-10 was \$ **0** ; **AND/OR \*** (one of these must be answered)
- c. The estimated added value that resulted from your nominees' achievement in 2009-10 was \$ **209000** .
- d. The above added value accrues to

- 25 % State Government
- 25 % Other Level of Government
- 25 % Specific Citizens
- 25 % Private Sector

e. Explain of calculation of the above cost savings, cost avoidance or additional revenue.

**3 areas of cost savings- rental space, copying costs, time spent searching**

**Rental space**

The 11,270 documents represent more than 1 million pages.

One file drawer is 4500 pages

62 file cabinets required

7.5 square feet for each of the 62 file cabinets= 278.52 square feet

Rental space is \$162.38 for each file cabinet

Rental space for the 278.52 square feet is \$6,030

**copying costs**

the 11,270 documents were 14,864 MB of data

1 MB of information is estimated to be 75 pages

page estimate= 1,114,700

Florida statutes allows \$0.15 per page for copying.

1,114,700 multiplied by \$0.15 per page is \$167,215.52

Locating documents is reduced from 20 minutes to 1 minute with OCULUS

If each of the 11,270 documents were accessed 1 time, 19 minutes of time would be saved

The total time saved is 35,68.83 hours

using \$10 per hour, the saving is \$35,688.33

rent	\$6,029.95
copy	\$167,215.52
locating	\$35,688.33

**SIGNIFICANCE OF ACHIEVEMENT - Part 2**

5. My nominees' achievement responds to budget reductions of recent years by improving services, programs, and/or processes that accomplish more with the same or fewer resources.

Electronic filing in OCULUS means less time spent maintaining paper files. Records in OCULUS can be located much faster (1 minute, including time to log onto the secure OCULUS server) than locating paper records.

Electronic documents inserted into OCULUS are available immediately.

The public, owners and operators of facilities, environmental consultants and Department staff can and do access records 24 hours a day using a computer and Internet connection. They do not have to drive to Orlando to see records.

More than 1 person can access a copy of the same record at the same time.

Less paper means fewer file cabinets and saving the cost of paper filing systems. OCULUS and electronic submitting of regulatory documents saves owners and operators of regulated facilities the cost of paper and printing. Chapter 119 Florida Statutes establishes \$0.15 per page to copy.

6. My nominees' achievement can be, and/or has been, adapted and implemented by other State employees or teams in order to

maximize its productive value.

**OCULUS is the Electronic Document Management System used by the Department of Environmental Protection. The Division of Waste Management programs use OCULUS in headquarters and in the 6 regulatory district offices. Drinking Water and Underground Injection Control Programs use OCULUS in headquarters and in the 6 regulatory district offices.**

**The efficiencies of the Central District OCULUS Team can be adopted by all the Department's Regulatory offices.**

7. My nominees' achievement is a "first-in-Florida" accomplishment.

**Not Applicable**

8. My nominees' achievement is a "first-in-the-nation" or nationally significant accomplishment.

**Not Applicable**

9. Role and responsibility for technology in nominees' achievement. **(Please check and/or fill in all applicable responses in this section)**

- a. The new technology or technical innovation/application that made the nominated achievement possible was:

**developed mostly by a consultant or non-nominated state employee, with some assistance by the nominees**

- b. Approximately **80** % of the new process, technical approach, or new software should be attributed to my nominees and approximately **20** % should be attributed to a consultant(s) or a non-nominated state employee(s).

- c. The new process, technical approach, or software required approximately **0** hours to complete.

- d. The new process or technical approach or new software required my nominees to perform **considerably** beyond their job expectations.

- My nominees' achievement was beyond his/her job description, performance expectations, peers' performance and day-to-day routine for a sustained period of time because :

- a. it required overcoming an organizational obstacle

Waste Management Programs were using OCULUS in January 2010. Drinking Water and Underground Injection Control Programs began using OCULUS in March 2010. No additional funding or positions were provided for the implementation of OCULUS. Program staff and managers had to learn OCULUS, and then figure out how best to implement OCULUS while still accomplishing the other tasks for which the programs are responsible.

It takes just a minute to retrieve a document in OCULUS. It takes about 5 minutes to insert most electronic documents. More than 900 hours were invested to ensure that the 11,270 documents were available in OCULUS.

- b. it was exceptional for its innovation or creativity

**Not Applicable**

- c. it was exceptional for the efficiency(ies) it produced

Electronic documents in OCULUS require less time to file and maintain than traditional paper systems. Inserting electronic documents in OCULUS and not printing saves paper and printing costs. Estimated pages saved for 2010 is more than 1 million pages. The printing cost for those pages using the Chapter 119 Florida Statutes cost of copying of \$0.15 is \$167,215.52.

OCULUS provides documents electronically to people 24 hours each day using a computer and Internet connection. The time to locate a document in OCULUS is 1 minute, including the time to log onto the secure OCULUS server.

- d. it was exceptional for the cost savings it produced

OCULUS affords cost savings for both the Department, those who submit information and those who need the information.

The Department saves paper and printing costs and the time to implement paper based filing systems.

People who submit information can often submit records electronically rather than in paper format which saves them paper, printing and postage costs.

People who need or want access to records can log onto the secure OCULUS system and locate a record in one minute. They do not need to drive to the office in Orlando to view files or to see if a record exists.

e. it was exceptional for the amount of initiative, perseverance and/or extra effort required

**In March 2010, OCULUS was expanded to Drinking Water and Underground Injection Control programs.**

**An important step in implementing OCULUS was working with the owners and operators who submit documents towards the goal of receiving more documents in electronic format rather than paper.**

**The team members had to learn OCULUS. Each section had to examine processes with a discerning eye to figure out how to implement insertion of electronic documents while minimizing the disruption of the ongoing and important work. Before inserting, the team had to figure out how each of the documents fit into the OCULUS system of cataloging records.**

f. it required working uncompensated hours. **0** ... number of nominees who are exempt from the FLSA

**0** ... combined total number of uncompensated hours worked by all exempt nominees from the beginning date until completion of the achievement

**0** ... average number of uncompensated hours worked by each exempt nominee

- My nominee's achievement measurably promotes a core value of your agency.

Core values of the Department of Environmental Protection include Less Process... More Protection and Open Government and Public Records Access.

OCULUS provides documents to anyone anywhere electronically using a computer and Internet connection in less than a minute. People do not have to hunt for documents or drive to Orlando to view paper files. Less time spent maintaining paper files or searching for documents lets staff focus on the core responsibility of the Department's regulatory programs- protection of public health and the environment.

More people have access to Department documents using OCULUS which helps promote Open Government.

- My nominees' achievement produced a service that positively impacts the private sector.

Many people and companies who need Department of Environmental Protection records and documents are owners or operators of regulated facilities, environmental consultants or people conducting business with facilities.

OCULUS provides documents to anyone electronically using a computer and Internet connection in less than a minute. People do not have drive to Orlando to view paper files. Documents in OCULUS can be viewed, saved and printed.

The average time to locate documents was reduced from 20 minutes to 1 minute which includes the time to log onto the secure server.

Submitting documents electronically reduces paper, printing and postage costs.

- My nominees' achievement addresses a homeland security issue or disaster preparation and relief efforts

#### **Not Applicable**

- My nominee's performance ranked number 1 among 7 teams or work units statewide, in 2009-2010.
- My nominees' achievement is similar to an achievement previously recognized by a Prudential - Davis Productivity Award or recognized by another source.

Each Department of Environmental Protection Regulatory District office uses OCULUS. Divisions of Water Resource Management and Waste Management use OCULUS. The Central District believes that due to the dedication and innovative thinking of this team, our efforts at receiving documents electronically and reducing printing and use of paper files rank highest in the Department.

- My nominees' achievement has been, or can be, patented or copyrighted.

**Not Applicable**

#### ASSISTANCE WITH ACHIEVEMENT

1. Approximately **20** % of my nominees' achievement should be credited to the work of a consultant or another state employee(s).

If your response is that more than 25% of the achievement resulted from work by your nominees' fellow employees or by a consultant, please provide a brief comment on why your nominee deserves an award.

**ROH is the Consulting firm that developed OCULUS and deployed the technology for the Department of Environmental Protection. Staff from ROH serve as consultants to the Department in the implementation of OCULUS.**

**Support staff from headquarters in Tallassee share information and ensure that the OCULUS system is functioning properly.**

**Staff from the Department's headquarters and other regulatory offices participated in the tailoring of OCULUS for each Department program.**

2. Approximately **0** % of my nominees' achievement should be credited to additional funding, or to a staffing increase, or to purchase of equipment.

If your response is that more than 25% of the achievement was due to additional funding, staffing, or equipment, please provide a brief comment on why your nominee deserves an award.

**Not Applicable**

**OPTIONAL INFORMATION**

This nomination recognizes the efforts of Central District staff who coordinated OCULUS implementation and who each inserted more than 100 electronic documents. Nomination DEP-51 recognized the efforts and accomplishments of the Central District Document Management Center which converts paper documents to electronic documents for OCULUS.

By the end of 2010, the Department's wastewater programs will be using OCULUS.

OCULUS has many benefits- easy, quick access to documents by those who need or want them is the primary benefit. Files are accessed from anywhere, at any time, using a computer with an Internet connection. Access benefits Department staff, the citizens and visitors, owners and operators of facilities.

**NOMINATOR'S ENDORSEMENT**

I, **Ruth McLemore-Price**, hereby recommend the above nominees for a 2010 Prudential - Davis Productivity Award.

**IMMEDIATE SUPERVISOR'S CONTACT INFORMATION**

Name: <b>Jeff Prather</b>	Job Title: <b>Deputy Director</b>
Address: <b>3319 Maguire Blvd, Suite 232</b>	Agency: <b>FDEP, Central District</b>
City: <b>Orlando</b>	State: <b>Florida</b> Zip: <b>32827</b>
Telephone: <b>407-893-7860</b>	Fax:
Email: <b>jeff.prather@dep.state.fl.us</b>	

**Immediate Supervisor's Comment:**

**Sample:**

As the nominees' supervisor, I have first hand knowledge of this team's content knowledge, professionalism, work ethic and organizational skills. They demonstrate these characteristics in every project they undertake. The achievement for which they deserve recognition will impact the manner in which education programs improve their curricula to help educate thousands of reading teachers.

This is an excellent nomination recognizing the efforts of the Central District's OCULUS electronic records team. In today's economic environment, there is a premium on reducing costs, and at the same time, increasing efficiency. Managing electronic documents and including them in OCULUS exemplifies reduction in costs and increased efficiency. By directly inserting electronic work products created by Central District staff, it reduces cost associated in printing, handling and storing paper files. Further saving are incurred by sending such documents electronically reducing the need for postage. Additionally, once in OCULUS, documents are immediately available for review by both staff and the public. These savings are also recognized when the Department receives electronic correspondence. We are very proud of this team's efforts to transfer over 11,000 documents directly into OCULUS. This has proven to be an extremely valuable service to the citizens of Florida.
